*Let PGA Pros Take Your Game to the Next Level*

## INSTRUCTION

Can you name two PGA Tour players that swing identically? At TGS, we don't teach a single swing "method" or "brand" of instruction. That's because there is more than one way to play, and play well.

Understanding that we are all unique individuals with very different personal goals and physical abilities is just the beginning of our systematic approach to your improvement. TGS uses 3 simple steps to develop your personalized program:

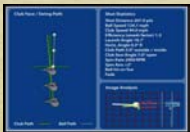

- ◆ Where you are now—Evaluate
- ◆ Where you want to go—Determine realistic goals
- ◆ Getting there—Create your road map to success

State of the art technology, time tested fundamentals and modern techniques are blended to accelerate each student's individual learning curve. Whether you are an eager beginner or a veteran wanting to take your play to the next level, TGS students improve quicker, and enjoy the Game more!

## PLAY - PRACTICE - COMPETE

**Play** 18 holes at Pebble Beach, Spyglass, Pinehurst or any of the other world championship courses in under an hour.

**Practice** all facets of your game on your favorite course. Make a bad swing? Immediately review the data to see what went wrong.

**Compete** with your friends, guests or other members. TGS hosts an extensive schedule of Tournaments and Contests.

## MEMBERSHIPS

The Golf Studio offers compelling benefits to its Members. A weather proof facility with state of the art technology, world class instruction, personal online golf academy, advance Internet scheduling, merchandise buying plan, and play on some the nation's finest golf clubs combine to create the ultimate Club Membership.

Members enjoy recreation, learning and competition in an ideal environment. Members may reserve The Golf Studio to host their special events - what an exciting venue for your family party, charity fundraiser or corporate team building event!

Keep track of your progress

## TECHNOLOGIES

Via the Internet, TGS provides Members a Personal Online Golf Academy and Advance Reservations for Private Lessons, Simulator Play, Clinics, and Special Events.

### HD GOLF SIMULATORS

provide the industry's most realistic indoor golf experience and extensive accurate data of your club motion and ball launch-not available outdoors.

### V1PRO & DIGITAL PUTTING

are the industry's finest video capture and analysis software. For visual learners, video replay analysis will make it simple and understandable. Review your lessons online!

**K-MOTION** is a breakthrough for golf instruction! Wireless sensors measure exact movements to build a 3D model of your swing motion. Rather than hearing turn more (or less), this equipment quantifies your motion.

## FACILITY RENTAL

The Golf Studio may be reserved for private events. Invite friends and family for a party, host a charity fundraiser, or business event. TGS provides a most exciting venue for any special function.

Contact us to customize a package of services just for you. These are just a few of the amenities you may select from:

- PGA Instructors - Attendants
- Contests - Scoreboard
- Catering - BYOB
